

SAFETY TREAD ANTI-SLIP COATING FOR ALL TYPES OF METAL PLATES & SITUATIONS

Floorsafe's quality safety Tread products have been helping workplaces to keep accident-free for more than 30 years.

Floorsafe understands that oil and chemical exposure, high moisture and salt environments, heavy impacts and around-the-clock operations all contribute to creating slippery steps, stairways, ladders and walkways becoming unsafe.

Safety Tread coating applied to many surfaces. Galvanised steel, aluminium, stainless steel & checker plate profile
